VISION STATEMENT:

"Building a society where quality service delivery over efficient infrastructure will be readily affordable and available"

MISSION STATEMENT:

"To harness the synergy of young happy professionals towards reaching out to the larger populace"

CORPORATE INFORMATION

Network Infrastructures & Services Technologies Limited RC 708466 is incorporated in Nigeria to provide quality and unparalleled IT services across Africa.

A company that is composed of young and dynamic certified IT professionals and consultants who have distinguished themselves in the field and has worked with renowned companies in the areas of Internet Services setup and building of reliable and resilient network infrastructures over the years.

We have designed and built networks in numerous countries in Africa using various Networking Technologies ranging from Fiber, Wireless, Ethernet etc.

EXPERTISE:

NISTech Ltd Network Engineers have decades of experience in Internet and Network Service Provision (WISP and WIRED), Data Center and Enterprise environments. Our engineers specialize in working with companies and individuals to reduce Capital Expenditure and Operating Expenses. We do this by validating the integration of solutions as a replacement for more expensive traditional network gears

MikroTik Training Partner, Consultants & Academy coordinator

Voice Over IP Solution Experts, Trainers and Integrators

TURNKEY DESIGN, IMPLEMENTATION AND SUPPORT:

CLOUD HOSTED SERVICE AND SOLUTIONS:

NISTech Ltd offers Cloud Hosted Virtual Private Network Services. Cloud Hosted Authentication Services for multiple sites/clients/users. We also offer Cloud Hosted Network Monitoring Services for all Network Devices across multiple sites… Tending towards Software Defined Networks eliminating the stress of maintaining physical NOC.

Linux and Open Source Solutions Experts, Trainers and integrations consultants

Fiber Optic Network Design, Implementation, support and Trainer

DESIGN

Determining your current and future networking needs can be a daunting task.

NISTECH LTD will help you formulate a scalable network strategy, and will design a solution to meet those needs.

No two networks are exactly alike; this requires our solutions to be customized to your specific needs.

Our team of design consultants takes the time to understand your company by analyzing your existing infrastructure, cabling specifications, and inventory. Only then do we develop a conceptual design to fit your specific needs for data, image, and voice communications

COMMUNICATION TOWER INSTALLATION

We provide specialized Tower services ranging from fabrication, installation, and maintenance. Remote Base station facility setup and general support services.

CORE SERVICES

Consultancy

Providing Solutions, Implementing appropriate knowledge Management and network solutions and value-added e-business applications can be challenging in today's rapidly changing IT environment. Rather than redirect valuable resources or expanding your hard-working staff, look to **NISTECH LTD** Network Consulting and Integration Services Team. Our experienced consulting professionals apply proven methodologies to help develop an end-to-end; multi-vendor network solution for your business and IT needs, for today and in the future. .

IMPLEMENTATION, MAINTENANCE AND SUPPORT

Only highly trained network engineers can roll out new network & software with the proper planning and oversight you require. **S**ystem upgrades and operating system updates can bring your network down or cause network degradations if done incorrectly. Our network engineers have the experience, education, and expertise to make your network implementation painless. **W**e have a service concept of "WOMB to TOMB" to cater to technology transition and adaptability. This Ensures lifetime usability to the technology fielded by us. **W**ith a service commitment of 24/7 (24 hours and 7 days), **NISTECH LTD** is geared to support large installations round the clock
